

OPD-A0814

FEATURES

- Frequency Range: 0.5-6GHz
- 8-Way Power Divider
- SMA Connectors
- Low Insertion Loss: 3.00dB
- High Isolation: 16dB
- Small Size
- Low VSWR
- High Consistency Batch Production

DESCRIPTION

The A-series power dividers are SMA connector 0° power dividers, with the full series covering 0.5-18GHz. They feature small size, low loss, low VSWR, and high isolation. This series employs batch production control methods, ensuring high product consistency and meeting large-volume delivery requirements. The OPD-A0814 is primarily used in electronic warfare, test and measurement, and ultra-wideband systems for the distribution and synthesis of 8-way microwave signals. This series is a standard Tiger product, customizable according to user needs, with commercial and industrial grades available.
