

# OHTD101-109-101-109

## Features

- Wide frequency range coverage: 5.5GHz to 110GHz
- Available bandwidths: 10%, 20%, 30%, 40%, and octave
- Peak power range: 1W to 40MW
- Average power range: 1W to 100KW
- Applications: Civil, military, aerospace, and space technology
- Customizable specifications according to customer requirements
- High performance and high reliability

## Description

The product named OHTD101-109 is high-performance A05 waveguide isolator & circulator, offering wide frequency coverage and high reliability for applications in civil, military, and aerospace sectors.

### Technical indicators

Part Number	Freq. (GHz)	Insertion Loss (dB)	Isolation (dB)	Return Loss (dB)	Power Forward (W)	Power Reverse (W)	Operating Temp (degC)
OHTD101-109	101-109	1	15	15	3	1	-40~+80
