

OHTD22-33.0-22-33.0

Features

- Wide frequency range coverage: 5.5GHz to 110GHz
- Available bandwidths: 10%, 20%, 30%, 40%, and octave
- Peak power range: 1W to 40MW
- Average power range: 1W to 100KW
- Applications: Civil, military, aerospace, and space technology
- Customizable specifications according to customer requirements
- High performance and high reliability

Description

The product named OHTD22-33.0 is high-performance A05 waveguide isolator & circulator, offering wide frequency coverage and high reliability for applications in civil, military, and aerospace sectors.

Technical indicators

Part Number	Freq. (GHz)	Insertion Loss (dB)	Isolation (dB)	Return Loss (dB)	Power Forward (W)	Power Reverse (W)	Operating Temp (degC)
OHTD22-33.0	22-33.0	0.45	18	18	25	5	-25~+60
