

OHYG50 5M-925-960

Features

- Embedded Stripline Isolator
- Low Insertion Loss
- High Isolation
- Wide Operating Temperature Range
- High Forward/Reverse Power Handling

Description

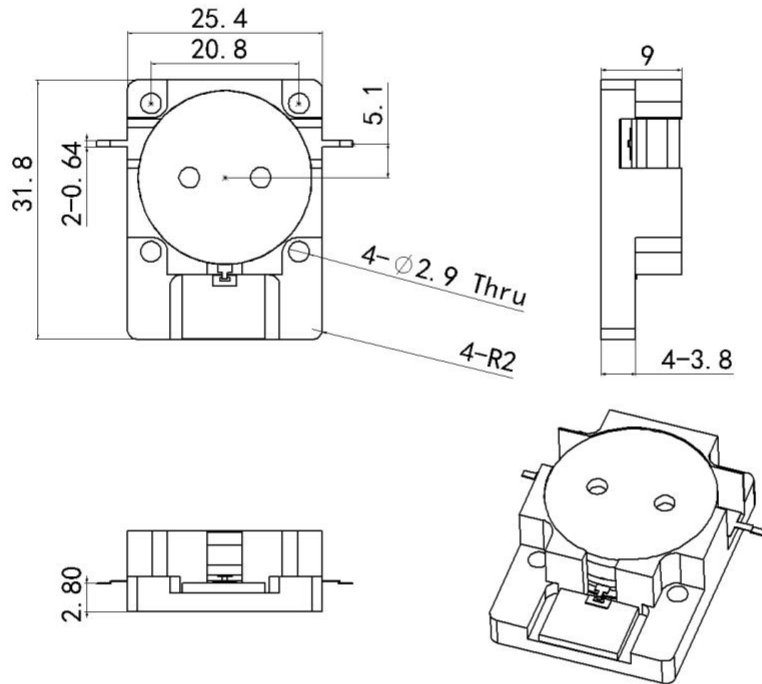

The product named OHYG50 5M 925-960 is high-performance embedded isolator designed for stripline applications, offering excellent isolation and low insertion loss across the 925-960 MHz frequency range.

Technical indicators

Size Spec	Part Number	Freq. (MHz)	Return Loss (dB)	Isolation (dB)	Insertion Loss (dB)	IMD3 (dBc)	Test Power	Forward Power (W)	Reverse Power (W)	Operating Temp (°C)
1.0inch	OHYG 505M	925-960	24	24	0.25	-70	2*50W	200	100	-40 ~ 120
